

Mahsa Nasiry

Front-End Developer

mahsanasiry2009@gmail.com | Open to remote work

Portfolio: mahsanasiry.github.io | GitHub: github.com/mahsanasiry | LinkedIn: linkedin.com/in/mahsa-nasiry

SUMMARY

Front-end developer who builds responsive, accessible web apps with React, Next.js, TypeScript and Tailwind CSS. Published three projects with live demos and public source code. Looking for a junior remote role where I can learn from an experienced team and ship real features.

SKILLS

Languages: HTML, CSS, JavaScript, TypeScript

Frameworks and libraries: React, Next.js, Tailwind CSS, Bootstrap

Tools: Git, GitHub, GitHub Actions, VS Code, npm

Practices: Responsive design, accessibility basics, SEO basics, working with REST APIs

PROJECTS

Weather Desk: weather dashboard

mahsanasiry.github.io/weather-desk

Next.js, TypeScript, Tailwind CSS, Open-Meteo API

- Loads live data from a public REST API: current conditions, an hourly chart and a 7-day forecast.
- Built a search box with debounced suggestions and keyboard support; outdated requests are cancelled with AbortController.
- Drew the hourly temperature chart with plain SVG, without a chart library. Added loading and error states.

Taskboard: Kanban board

mahsanasiry.github.io/taskboard

React, TypeScript, Tailwind CSS

- Implemented drag and drop between columns with the native browser API, with no library.
- Managed all state changes with useReducer; tasks are saved in the browser with localStorage.
- Added search, a priority filter, overdue dates, and a move menu for phones and keyboard users.

Bean & Bloom: landing page

mahsanasiry.github.io/bean-and-bloom

Next.js, TypeScript, Tailwind CSS

- Built a fully responsive landing page for a sample small business.
- Added a contact form with validation and a spam trap, plus SEO basics: metadata, sitemap and structured data.
- Set up automatic deployment to GitHub Pages with GitHub Actions.

EDUCATION

Sepehr Academy

Front-End Web Development training: HTML, CSS, JavaScript, React, Next.js, TypeScript, Tailwind CSS

Government Model School (Nemooneh Dolati)

High school, mathematics track

LANGUAGES

Persian (native) | English (advanced; completed an IELTS course)
